A discount of 10% from the prices in this price list will be allowed to clients of LANDSCAPE ARCHITECTS, and an additional discount of 5% will be allowed if payment is made within 30 days of date of invoice.

Unsatisfactory plants or errors in count must be reported within seven days after receipt of stock so that we may make immediate adjustment—otherwise no claims will be accepted.

We do not warrant any of our plants other than that they are true to name. Positively no belated claims will be allowed.

THE PLANTING SEASON

Transplanting can be done successfully as soon as the frost is out of the ground in the spring until early in June. Evergreens and herbaceous perennials can be successfully transplanted until the middle of June. We usually begin to dig about the 20th of March.

Directions for Shipping

Parties ordering are requested to state explicitly the mode of conveyance by which they desire their stock forwarded.

When no route is designated, we exercise our judgment ; but in no case do we assume any responsibility after packages are shipped, unless for our own mistakes. When losses occur by detention, claims should at once be made on the **TRANSPORTATION COMPANY** by the consignee.

INSPECTOR'S CERTIFICATE ACCOMPANIES EVERY SHIPMENT.

CONDITIONS OF SALE

First—The articles herein listed will be furnished at prices designated as per following schedule:

1 to 5 plants of one kind will be charged for at the single rate, whatever the aggregate of a list made up in numbers of less than 5 plants of a specific sort may be.

5 to 40 plants of one kind will be furnished at the ten rate.

40 to 250 plants of one kind will be furnished at the hundred rate when hundred rates are given except in the case of perennials when 25 of one kind will be given the hundred rate.

250 plants and above of one kind are entitled to the thousand rate when a thousand rate is given.

FROM THIS SCHEDULE WE WILL NOT VARY because of the fact that it takes considerable time to assemble a list of plants that are scattered over the nursery.

Second—We give no warranty, expressed or implied, as to quality, description, productiveness, or any other matter of any nursery stock that we sell. **No complaints will be considered that are not made within ten days after receipt of stock.**

Third—The prices annexed do not include the boxes or bales. A charge for the actual cost of the boxes or the material used in baling is made. No charge for conveyance to freight station.

Our terms are cash, unless by special agreement. We can ship by express C. O. D., when desired, with charges for collection added to the bill—provided 20 per cent of the amount of the order accompanies the same as a guarantee. Said guarantee will be required only from parties with whom we have no business acquaintance. All bills remaining unpaid **December 1st** in Fall, and **June 1st** in Spring, will be subject to sight draft without further notice.

BAY STATE NURSERIES,

North Abington, Mass.

Ornamental Department

NOTE — In compiling this list, we have endeavored to include only such varieties of stock as we have now in our nurseries, in sizes and quantities offered. In filling orders we shall grade stock according to these specifications. Should orders be received for sizes not found in this list, or should any specified grade be exhausted, we will send the nearest size we have in stock at the time the order is received and charge accordingly UNLESS OTHERWISE ADVISED.

RHODODENDRONS

Rhododendrons are one of our specialties. At the present time the Hybrid varieties are becoming very scarce. We can still offer, however, a limited number of the Hybrid and Dwarf Alpine varieties.

The native Catawbiense and Maximum types we offer are all nursery grown, healthy and vigorous. We can, through our collector, furnish these types in collected types of any quantity desired. Write giving sizes and quantities wanted, and we will make special quotations.

Our prices for Rhododendrons as well as for Evergreens includes balling and burlapping (B & B). The prices of the various sizes of hardy Hybrid Rhododendrons except Boule de Neige are as follows:

	Each		Each
2 ft.	\$6 00	4 ft.	\$15 00
2½ ft.	8 00	4½ ft.	18 00
3 ft.	10 00	5 ft.	21 00
3½ ft.	\$12 00		

We can furnish the following varieties in the sizes, viz.:

Abium Elegans (Large white)		Delicatissimum (Blush white)	
3 ft.	5 ft.	2 ft.	3½ ft.
3½ ft.	5½ ft.	2½ ft.	4 ft.
4 ft.	6 ft.	3 ft.	4½ ft.
4½ ft.		Everestianum (Rosy lilac)	
Album Grandiflorum		2 ft.	2½ ft.
2½ ft.	3½ ft.	Lee's Dark Purple	
3 ft.		2 ft.	3 ft.
Atrosanguineum (Scarlet)		2½ ft.	
2 ft.	2½ ft.	Roseum Elegans (Fine Rose)	
Boule de Neige (Dwarf White)		2 ft.	3½ ft.
	Each	2½ ft.	4 ft.
18 x 18 in.	\$4 00	3 ft.	
24 x 24 in.	5 00		
Catawbiense Grand. Alba (White)			
2 ft.	3½ ft.		
2½ ft.	4½ ft.		
3 ft.	5 ft.		

We have a number of Hybrid Rhododendrons composed of many different varieties, but there are too few of any one variety to make it worth while listing them, and we have therefore decided to sell them by color. These are all desirable varieties and are composed of such sorts as Abraham Lincoln, Candidissimum, Charles Dickens, Gen. Grant, H. W. Sargent Kettledrum, Lady Armstrong, Roseum Superbum, and many others. Every plant will be labeled its true name. We can furnish these from 2 to 5 ft. at the prices given at the top of this page in the following colors :

Crimson
Lavender
Pink

Purple
Red

Scarlet
White

CURRANTS and GOOSEBERRIES

On account of the "White Pine Blister-rust" which spreads from these plants to White Pines and other five-needed Pines, we have discontinued growing and selling Currants and Gooseberries.

Herbaceous Department

On account of the increasing popularity and demand for Herbaceous Perennials, our acreage has been extended from year to year, so that now this department alone covers about twenty-four acres. We are adding new and choice plants to our collection each year.

About all the plants we grow are strong field-grown; the only exceptions being a few species which transplant better by being grown in pots, also some of the choice new varieties.

HARDY PERENNIALS, FERNS AND GRASSES

Full descriptions will be found in our Handbook of General Information.

See CONDITIONS OF SALE on page 2.

GERMAN IRIS—TALL BEARDED IRIS—New Varieties:

We are offering this list of Tall Bearded Iris (German Iris) in addition to those listed above. We believe that the varieties described here offer a good variety of color and are varieties that will be of value for many years to come despite the fact that novelties are being produced constantly.

"S" represents standards or upper petals; "F," falls or lower petals. The figures which follow the names of the originators denote the value rating according to the symposium of the American Iris Society, published in May, 1922.

The American Joint Committee on Horticultural Nomenclature have recently issued "Standardized Plant Names", which it is hoped will eliminate much of the confusion on plant names.

We have endeavored to list our plants this spring in accordance with the names as given in "Standardized Plant Names". If you have any difficulty in finding in our price list any varieties you wish, write us and we will give you an immediate reply as to whether or not we can furnish them.

A Word About Transportation

We can deliver your order by express, freight, or motor truck.

We have a siding at our packing house where we have every facility for handling car lots for long distances with promptness and efficiency.

We have several auto trucks which we use to deliver our stock and we can hire more when necessary. The auto truck has proved to be very satisfactory in the delivery of nursery stock.

First—Because within a range of one hundred miles from our nurseries, it can travel the distance so quickly that stock arrives as fresh as when taken from the nursery rows.

Secondly—Because the truck lands the stock on the grounds where it is to be planted, thus saving the bother and expense of trucking and unpacking.

Thirdly—Because it can be delivered at less expense than would be the boxing, freight and trucking charges if sent by freight in boxes, providing there is stock sufficient to make a respectable load for a truck.

The charges are made according to the distance travelled and the size of the truck used.

Remember that we are here to serve. Command and see how well we can execute your orders.

A copy of our Handbook of General Information on Trees and Hardy shrubs will be gladly sent on request.

LOCATION OF NURSERIES

The Bay State Nurseries are located in North Abington, Mass., 18 miles south of Boston, on the Plymouth Division of the N. Y. N. H. & H. R. R.—half way from Boston to Plymouth. Trains leave the South Station at frequent intervals during the day. Visitors are always welcome. Our office is ten minutes walk from the station. If notified we gladly meet visitors at the station and show them about the nurseries.

To reach us by motor, go to Quincy, then proceed directly South through Weymouth and South Weymouth until you see our sign at the fork of a road, turn to the left and you cannot miss our office one-half mile farther off. We are just off the road which goes to Middleboro and the Cape.

**We are not open for business on
Sunday.**
